HOW TO USE THIS ROUTE GUIDE

This route guide includes a map and schedule for the route number shown on the front of the guide. Both "connecting routes" 0 and "time points" 1 appear on the map. A connecting route is another bus line you can transfer to at an intersection. A time point is a stop along the route where the bus will be at a time shown in the schedule. Schedules are arranged by direction and day of travel (for example, "Northbound" and "Weekdays"). The guide is easy to use:

If you know what time you want to leave...

1. Open the guide to the route map and locate the time point *at or before* the stop where you will start your trip.
2. Turn to the schedule and locate the column for your starting time point and read *down* the table to the scheduled time *at or before* the time you want to leave. Read *across* the table from your starting column to the column under your destination to learn your arrival time.

If you know what time you want to arrive...

1. Open the guide to the route map and locate the time point *at or before* the stop where you will end your trip.
2. Turn to the schedule and locate the column for your destination time point and read *down* the table to the scheduled time *at or before* the time you want to arrive. Now read backwards *across* the table from your destination column to the column under your starting point. This gives you the time you should start your trip.

ABOUT SCHEDULE CHANGES

MCTS operators give out new route guides whenever the schedule changes, at least twice a year for most routes. The effective date of the new information is shown on the front.

UNDERSTANDING BUS SIGNS & DESTINATIONS

Bus signs showing the route number and name are located at each bus stop. Sometimes buses from more than one route stop at the same bus stop. Some routes also travel via alternate streets and have different final destinations. When you board the bus, check that you are on the right route with the destination you want. Above the windshield of each bus is a sign showing its route number and final destination. Be at your stop 3-5 minutes early to be sure to catch the bus you need.

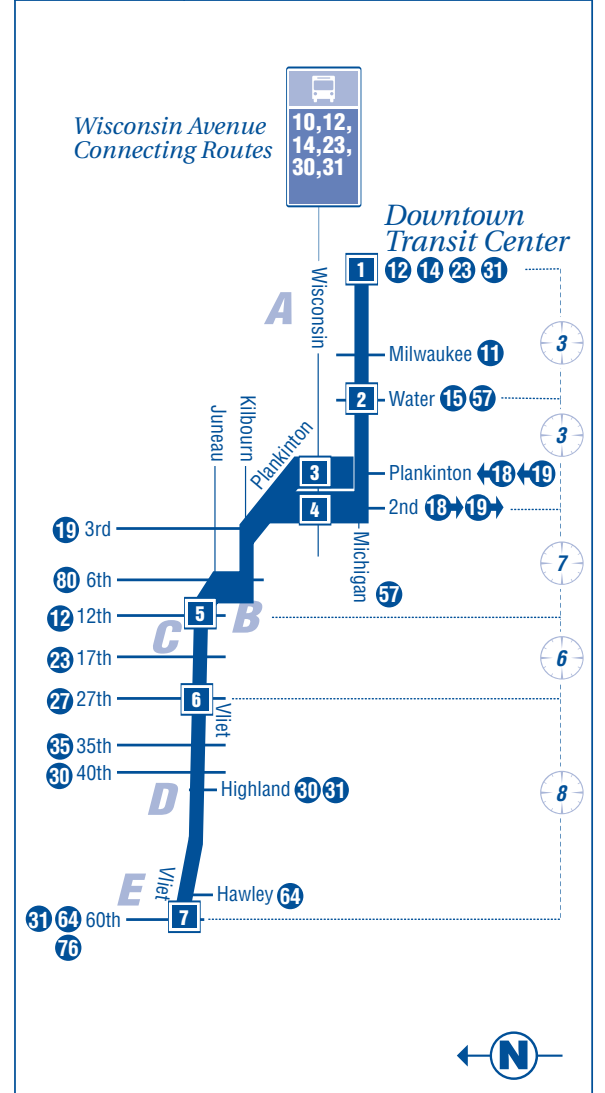

TRANSIT GUIDE

Milwaukee County Transit System, MCTS, serves riders on more than 55 routes. To find the route which serves your neighborhood, your workplace and other destinations, look for an MCTS Transit Guide, which includes a color map of all routes and their connections throughout the county. Look for the MCTS Transit Guide in racks throughout the county or visit www.RideMCTS.com.
